

1st Circular to announce 24th annual international conference

State of geomorphological research in 2026

Dear colleagues,

We are pleased to invite you to the 24th International Conference *State of Geomorphological Research*, which will take place in the historic town of Broumov and its spectacular surroundings.

Situated on the Czech–Polish border and embedded within a landscape of remarkable sandstone formations and other geomorphologically inspiring landforms, Broumov provides an ideal setting for a pleasant, friendly, and stimulating meeting of geomorphologists and related geoscientists.

This year's conference is jointly organized by the Institute of Rock Structure and Mechanics, Broumovsko Protected Landscape Area Authority, and the Czech Association of Geomorphologists. The conference will be held on April 22. - 24. 2026.

As in previous years, the thematic scope of the conference will encompass the full breadth of geomorphology as well as related geoscientific disciplines. A highlight of the meeting will be a full-day field excursion showcasing some of the most compelling geomorphological sites within the unique landscape of the Broumovské Hills.

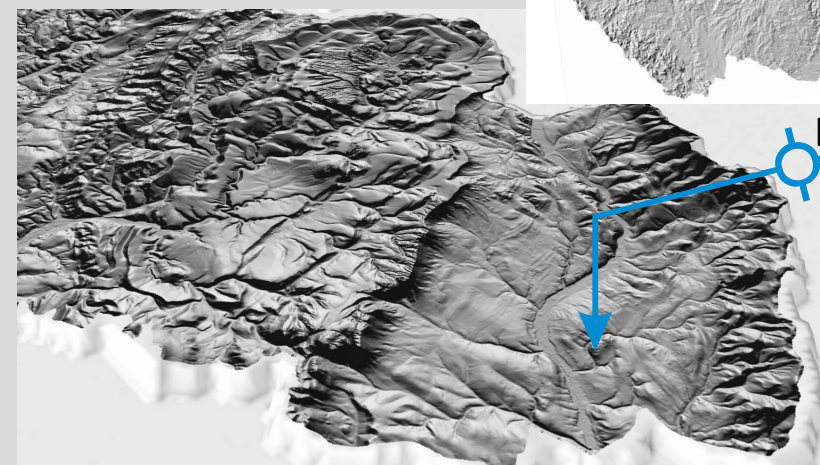

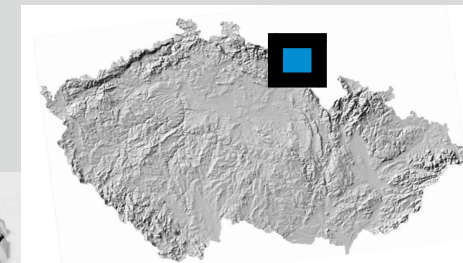

We trust that the conference will offer an inspiring forum for discussion, exchange of ideas, and the presentation of your valuable research. We look forward to your contributions and to welcoming you in Broumov.

Further details regarding registration fees, important dates, accommodation options, and conference venues will be provided in the second circular to be released in early 2026.

The Organizing Committee

the conference will take place in the town of Broumov near czech-polish borders

Broumov
